ISTP

What are ISTP's like?

ISTPs are mysterious people who are usually very rational and logical, but also quite spontaneous and enthusiastic. ISTPs are optimistic and generous, and they believe that fairness and equality are important. ISTPs live in the present and love variety and new experiences. They're practical and realistic, results-oriented and determined. They're usually easygoing with people and confident in their own abilities.

The Craftsman

Introvert

Quiet, reserved, and self-sufficient. Socializing drains their energy. Comfortable being alone. Processes thoughts internally. Needs time alone to recharge.

Sensing

Aware of, and trusting facts, specifics, details, past experience and present realities. Is often observant, realistic and pragmatic. Lives in the here-and-now.

Thinking

Makes decisions based on logic rather than emotions. Ruled by the head, not the heart. More concerned with facts than protecting people's feelings.

Perceiving

Preferring spontaneity, flexibility and keeping options open. Being adaptable and going with the flow. Playful, less aware of time. Prefers to start projects, questions the need for many rules.
