INTP

What are INTP's like?

INTPs are arguably the most logical minded of all the personality types. They love patterns, have a keen eye for picking up on discrepancies, and the ability to read people, making it a bad idea to lie to or to try to deceive an INTP. INTPs share what is on their mind, often without fully developing ideas or thinking everything through before they speak. Usually they are very independent, unconventional, and original.

The Architect

Introvert

Quiet, reserved, and self sufficient. Socializing drains their energy. Comfortable being alone. Processes thoughts internally. Needs time alone to recharge.

iNtuitive

Imaginative, creative, and introspective. Good at analysis of complex topics. Focuses on the future instead of the present. Trusts gut instincts.

Thinking

Makes decisions based on logic rather than emotions. Ruled by the head, not the heart. More concerned with facts than protecting people's feelings.

Perceiving

Preferring spontaneity, flexibility and keeping options open. Being adaptable and going with the flow. Playful, less aware of time. Prefers to start projects, questions the need for many rules.

7 Common INTP Traits
